Presentation and Discussion Guidelines

As has happened so successfully at previous TMN meetings, all TMN members attending the meeting are encouraged to present on their company's practices/ lessons learnt relating to the meeting topics.

This TMN meeting will focus on “**Harnessing the Value of Digital Technology**”.

Each member will have approximately 45 minutes to present and discuss questions. Please come with some PowerPoint slides for your presentation. Based on the topic, please address the following areas in your presentation:

Harnessing the Value of Digital Technology

- How do you define “digital technology”?
- What are the E&P pain points that would benefit most from digital technology?
- How does the commercialization and deployment of digital technology differ to that of ‘traditional’ technology?
- How do you set metrics for and manage a funnel of digital technology projects? How does this differ from ‘traditional’ technology management?
- What is your company’s approach to developing the discipline of “data science”?
- How receptive are your operations people to using digital technology? Does this vary by type of technology?
- How can an O&G operator protect itself against digital attack?
- How do you articulate the value of digital technology?
- What will the “digital E&P operator” will look like in 30 years’ time?
